Aluminum Profile Aging Furnace

Function: Aging extrusion aluminum profile, increase hardness of profiles

Advantage: lower energy consumption, better thermal insulation effect, aging evenly, smaller temperature tolerance

Design features:

- 1, hot air vertical circulation, better thermal insulation effect, energy saving, environmental protect
- 2, stable effective sealing design
- 3, supply loading trolley – as per customer require or profile baskets supplied by buyer)
- 4, two point temperature control and over-temperature alarm, over -temperature and over-time alarm protect circuit, notice operator by acoustic optical alarm
